

Field Experience Specification (Bachelor)

Course Title: Field Training

Course Code: PHY 1496

Program: Bachelor of Science in Physics.

Department: Physics

College: Science

Institution: Imam Mohammad Ibn Saud Islamic University

Version: 1

Last Revision Date: 26/09/2024

3.3	Enhance integrity and honesty.	V1	Discussion, Behavior	Direct Observation	Supervisor

^{*}Assessment methods (i.e., practical test, field report, oral test, presentation, group project, essay, etc.).

Assessment Methods (tools)

- Discussions/Debates: Encourage comprehension and active engagement with key concepts.
- Written Tasks: Comprise essays and reports to assess understanding and critical thinking.
- Oral Presentations: Evaluate communication skills and the effectiveness of information delivery.
- Portfolios: Serve as a record of learning and a means for reflecting on experiences.
- **Direct Observation**: Allow for immediate assessment of skills and professional conduct in real-time situations.
- Supervisor Evaluation: Monitors and assesses on-site performance and professional interactions.
- Instructor Assessment: Evaluates written assignments, presentations, and overall mastery of the course learning outcomes

C. Field Experience Administration

1. Field Experience Flowchart for Responsibility

Including units, departments, and committees responsible for field experience identifying by the interrelations.

Responsibilities in field experience management are subject to the Executive Rules for the Field experience Policy at IMSIU The Executive Rules for the Cooperative-Field Training Policy at **IMSIU** College Council Training Dean Organization Department Chair Field Experience Committee Field Supervisor Teaching Staff Student

In addition, the College should develop a comprehensive Field Training Guide (FTG) that serves as a valuable resource for both students and supervisors, enhancing the overall field training experience. This guide will maximize learning opportunities and help ensure successful training outcomes.

Key Roles of the Guide:

- Clarifies Expectations: Outlines the objectives and responsibilities for students and supervisors.
- Provides Structure: Details the procedures, timelines, and necessary documentation.
- Facilitates Learning: Offers resources and best practices for skill development.
- Standardizes Assessment: Defines assessment criteria for consistent evaluation.
- Supports Reflection: Includes prompts for students to reflect on their experiences.
- Serves as a Resource: Provides information about organizations and industry standards.
- Enhances Communication: Outlines protocols for effective collaboration.
- Ensures Compliance: Addresses ethical considerations and legal requirements

3. Field Experience Location Requirements

Suggested Field Experience Locations	General Requirements*	Special Requirements**
Maaden Saudi Aramco KACST The Zakat, Tax and Customs Authority (ZATCA) Public School Private School General Authority for Statistics	The workplace must be registered and approved by the competent Saudi instances. Legal status as determined by the law in Saudi Arabia. Efficiency and safety.	The field experience location activities must be appropriate and consistent with the mission of Imam university and the requirements for field experience learning outcomes.

 $[\]hbox{* E.g., Provides information technology, equipment, laboratories, halls, housing, learning sources, clinics \dots etc.}\\$

4. Decision-Making Procedures for Identifying Appropriate Locations for Field Experience

- **Establish Partnerships:** The college should develop a diverse range of partnerships with potential training organizations that offer high-quality training opportunities.
- Availability of Partnerships: A comprehensive list of these partnerships should be accessible on the College of Science website.

^{**} E.g., Criteria of the institution offering the training or those related to the specialization, such as safety standards, dealing with patients in medical specialties ... etc.

- Partnership Criteria: The selection of partnerships must align with the specific requirements outlined in this document.
- Communication with Organizations: The college should share this document, which includes qualifications and responsibilities, with the training organizations to ensure that they can meet the skills requirements for selecting suitable field supervisors.

5. Safety and Risk Management

Potential Risks	Safety Actions	Risk Management Procedures
Potential Risks depend on the workspace and production activities of the training organization.	Basic safety rules and tips that need to be followed at the worksite.	Respecting the last updated version of the booklet "Implementation of Risk Management and Safety Culture" published by The Ministry
Potential sources of harm and hazards should be identified. This issue should be discussed with Training Organization before starting the training	Safety guidelines must be established and maintained: safety procedures for laboratory investigations and field trips should be implemented.	 of Labor and Social development. providing an understanding of how to deal with different types of worktraining to help reduce exposure risks. Offering short risk management training at the beginning of training.

D. Training Quality Evaluation

Evaluation Areas/Issues	Evaluators	Evaluation Methods
Student performance, effectiveness and efficiency	Field Supervisor,	Direct and Indirect
Quality of learning resources Effectiveness of Training and assessment. Student performance	Teaching staff	Indirect
Evaluation of the field Experience (workspace, Quality of learning resources, supervisory, achievements, skills, behavior, time)	Student	Indirect

Evaluation areas (e.g., Effectiveness of Training and assessment, Extent of achievement of course learning outcomes, Quality of learning resources, etc.)

Evaluators (Students, Supervisory Staff, Program Leaders, Peer Reviewer, Others (specify)

Assessment Methods (Direct, Indirect)
