A. General information about the course:

Course Identification	
1. Credit hours:	3
2. Course type	
a.	University <input type="checkbox"/> College <input checked="" type="checkbox"/> Department <input type="checkbox"/> Track <input type="checkbox"/> Others <input type="checkbox"/>
b.	Required <input checked="" type="checkbox"/> Elective <input type="checkbox"/>
3. Level/year at which this course is offered:	3rd level, 1st year
4. Course general Description	
This course focuses on how to make and amend airline reservations using the global distribution systems (Amadeus/Galileo) system which is used by travel agencies and airlines in KSA and throughout the world. The course covers research on the organisations involved in the global airline industry, analysing the airline business industry, researching a Global Distribution System (GDS) to access travel and airline information and creating a customer record using a Global Distribution System (GDS).	
5. Pre-requirements for this course (if any):	
6. Co- requirements for this course (if any):	
7. Course Main Objective(s)	
The objective of this course is to provide an overview of the Airline Industry along with an introduction to the practical skills necessary to operate a Global Distribution System (GDS). Over the course of this module the students will gain knowledge and skill on the International Airline Industry, airline regulatory environment, interpret airline terminology and abbreviations, evaluate the main characteristics of airline schedules and make and issue a flight ticket.	

1. Teaching mode (mark all that apply)

No	Mode of Instruction	Contact Hours	Percentage
1.	Traditional classroom		
2.	E-learning		
3.	Hybrid <ul style="list-style-type: none"> Traditional classroom E-learning 	40	100%
4.	Distance learning		

2. Contact Hours (based on the academic semester)

No	Activity	Contact Hours
1.	Lectures	40
2.	Laboratory/Studio	
3.	Field	

4.	Tutorial	
5.	Others (specify)	
	Total	40

B. Course Learning Outcomes (CLOs), Teaching Strategies and Assessment Methods

Code	Course Learning Outcomes	Code of CLOs aligned with program	Teaching Strategies	Assessment Methods
1.0	Knowledge and understanding			
1.1	Examine and explain the current International Airline Industry.	K1	Delivering Lectures Report writing	Research report including an overview of the current airline industry.
1.2	Define the KSA airline regulatory environment.	K3	Delivering Lectures Report writing	Key areas of assessment should include: <ul style="list-style-type: none"> ● Factors that affect the airline industry. ● Benefits of the airline industry. ● Role of IATA and ICAO within the airline industry.
...				
2.0	Skills			
2.1	Interpret Airline jargon, terminology and abbreviations.		Delivering Lectures Report writing	The research report must also include a section describing the main aspects of planning airline journeys, including the impact of low costs airlines.
2.2	Evaluate the main characteristics of airline schedules.		Delivering Lectures Report writing	
2.3	Categorise the models of low-cost carriers.		Delivering Lectures Report writing	
2.4	Evaluate airline costs and revenue.		Delivering Lectures Report writing	
2.5	Access and understand an airline's availability display.		Delivering Lectures Report writing	The research report must include a section describing the Global Distribution System's role and function in the travel and tourism industry.
2.6	Examine information on health, visa and passport requirements.		Delivering Lectures Report writing	
2.7	Research weather conditions and calculate world time differences.		Delivering Lectures Report writing	

Code	Course Learning Outcomes	Code of CLOs aligned with program	Teaching Strategies	Assessment Methods
2.8	Specify code and decode airline, airport, city, country and currency codes.		Delivering Lectures Report writing	
...				
3.0	Values, autonomy, and responsibility			
3.1	Demonstrate how to create a passenger name record.		Delivering Lectures Solve problems in groups during tutorial	Workplace observation of the student confidently using and sourcing information from a GDS and presenting travel options and information to the customer. Final examination.
3.2	Inform the passenger of fare options.		Delivering Lectures Solve problems in groups during tutorial	
3.3	Describe the pricing of an itinerary.		Delivering Lectures Solve problems in groups during tutorial	
3.4	Issue a flight ticket.		Delivering Lectures Solve problems in groups during tutorial	
3.5	Explain and operate a Global Distribution queue system.		Delivering Lectures Solve problems in groups during tutorial
