

Information Systems Department

Course Syllabus

IS200 - Introduction to Information Systems

Catalog Description: The course will cover the general concepts, fundamentals and terminology of computer information systems as they are used to process information. The hardware, software, data, communications and people requirements of computerized information systems will receive extensive coverage, as will the pervasive influence of internet-based information processing. Career opportunities in Information Technology will also be covered.

Credit Hours: **3 Credit hours:** 3 Lectures per week 0 Labs. per week 0 Recitation per week

Prerequisites: CS106 and CS141

Course Learning Outcomes:

1. Define the fundamental concepts, methods and practices of modern information technology.
2. Write the needs of modern businesses for Information systems.
3. Recognize how information systems are developed.
4. Evaluate requirements of hardware, software, communications & data that are used in information systems.
5. Summarize current techniques, skills and tools necessary for computing practice.

Major Topics:

- Assuming the Role of the Systems Analyst
- Hardware
- Software
- Data Resource Management
- Telecommunications and Networks
- Electronic Commerce Systems
- Decision Support Systems
- Developing Business/IT Solutions
- Security and Ethical Challenges
- Project Discussions

Text Books: Introduction to Information Systems - Loose Leaf 16th Edition by George Marakas (Author), James O'Brien (Author) Publisher: McGraw-Hill Education; 16th edition (2012) ISBN10: 0073376884 | ISBN13: 9780073376882

Course Syllabus

IS200 - Introduction to Information Systems

Grading:

- ⦿ The grading scale for this course is:

95 - 100	A+	Passing
90 - 94	A	Passing
85 - 89	B+	Passing
80 - 84	B	Passing
75 - 79	C+	Passing
70 - 74	C	Passing
65 - 69	D+	Passing
60 - 64	D	Passing
0 - 59	F	Failing

- ⦿ Final grades will be determined based on the following components:

- . 60% Semester Work
- . 40% Final Exam

- ⦿ Students may not do any additional work for extra credit nor resubmit any graded activity to raise a final grade.

- ⦿ Late submissions will not be accepted for any graded activity for any reason.

- ⦿ Students have one week to request the re-grading of any semester work.

Attendance Policy:

Students should attend 80% of the overall course hours taught in the semester as per the University regulations.

If a student fails to achieve this portion, he/she shall not be allowed to appear in the final exam and shall be awarded "DN" grade and repeat the course.

Cheating and Plagiarism Policy:

The instructor will use several manual and automated means to detect cheating and/or plagiarism in any work submitted by students for this course.

When a student is suspected of cheating or plagiarism, the instructor raises the issue to the disciplinary committee.
